

## MRC Micro-Grants

Micro-grants are available for individuals and organizations with microsantuaries. Our grants of \$500 (individuals) or \$1,000 (non-profits) can be used for a variety of expenses, from infrastructure, to special projects, to veterinary care. We currently have four funds:

### Reproductive Healthcare Fund:

used for contraception and other reproductive healthcare, by a veterinarian

### Microsanctuaries of Color Fund:

this program, in partnership with Sanctuary Publishers, provides grants for vegans of color to help with starting a microsantuary or making improvements to an existing microsantuary.

### Startup Fund:

one-time grants to help with starting a microsantuary or specific care expenses.

To learn more  
and for eligibility  
guidelines, visit:  
[microsanctuary.org/grants](http://microsanctuary.org/grants)

### Special Projects Fund:

the goal of these grants is to assist with specific projects with expected cost of \$5,000 or less, as well as specific medical care expenses for residents.
